weave, heavy 98c doz.

The usual \$1.25 value for 98c to-day.

Full Bleached Hemstitched Table Cloths, 8-10 95c
size; special to-day.

All White Hemstitched Huck Towels, heavy weight, 9c each.

PREPARING FOR ANOTHER NORMAL

Architects Chosen to Supervise Construction of Building in Fredericksburg.

After having been in session for more than four hours last night, the board of visitors of the new State Female Normal School to be located at Fredericksburg selected three architects to supervise the construction of the proposed buildings, one, two or all of whom may act, as they may later determine among themselves. Those chosen were C. M. Robinson, P. H. Stern and Charles K. Bryant, though a number of others were competing for the work.

Shortly after the meeting was called to order, Senator John A. Lesner, of Norfolk county, offered the following resolution, which was adopted:

"Resolved, That we authorize the executive committee to purchase from J. B. Rowe the site previously agreed upon by the board, forty-seven acres, more or less.

"That the said committee is further authorized to purchase an additional parcel of land from the said Rowe to the east of said site containing five acres, more or less, to which said Rowe has a title.

"That since in the said parcel of land there is located in several places some fifteen lots owned by other parties, the said committee is authorized to secure said lots either by purchase or condemnation.

"That the said committee is further authorized to secure right of way around the Mary Washington Monument either by deed or by condemnation."

Fight Over Architects.

The main fight came over the selection of the architects, this matter having consumed the greater portion of the session. John Kavan Peckles, of Norfolk, and Charles K. Bryant, of this city, were the only candidates who were present. They were admitted to the room, speaking briefly against the competitive system, though neither said anything in advocacy of his own claim. Rev. J. Sidney Peters resigned as chairman of the Board because of his inability to give the affairs of the institution the proper attention. Dr. J. A. C. Chandler, of this city, having been chosen in his stead.

The Committee on Grounds and Buildings was instructed to select a landscape artist to design the grounds. The appropriation made for the construction of the administration building by the last Legislature was \$50,000, though it is expected that this amount will be augmented at the coming session.

The officers and members of the board are as follows: President, J. Sidney Peters, Manchester; Rev. J. E. Smith, Fredericksburg; Vice-President, R. H. C. Chichester, Stafford; Treasurer, Judge Alden Bell, Culpeper; Secretary, J. T. Daniel, Cape Charles; Senator John A. Lesner, Norfolk county; Geo. W. Round, Prince William; J. W. Edwards, Accomack; P. J. White, Richmond; Dr. J. A. C. Chandler, Richmond; Jos. D. Eggleston, Jr., Superintendent of Public Instruction.

GREEN CAR HELD UP

Traveling Home of Dixie Minstrels Attached in Debt Suit.

The humble green passenger car, the former vagrant home of the Dixie Dixie Minstrels, has been attached for debt by Sheriff Epps.

The National Printing and Engraving Company, of Chicago, has a bill against the owners, Nolan & Voelcker, for \$2,000, alleged to be due for show bills, setting forth in glowing words and still more glowing colors the histrionic talents of the now departed minstrel band.

Unless something is done soon the green car will be sold under the sheriff's hammer, and suffer some of the uses of the adversity which hangs over near all that pertains to the profession of mask and buskin.

Police Court Cases.

Albert Robinson, colored, was called in the Police Court yesterday morning on the charge of assaulting and wounding John Hudson with a blunt instrument. Hudson did not appear, and his alleged assailant was held while a rule was issued for Hudson's appearance September 11.

Henry Smith, colored, was charged with stealing a pair of trousers valued at \$4 from John Chriss. He was sentenced to ninety days in jail.

A. W. Price, colored, was charged with keeping a gambling house at 411 North Seventeenth Street. He was fined \$20 and required to give security of \$100.

Howell Cobb had to pay \$2 for expediting on the street.

LADIES' TAILORS FACE STRIKE HERE

Workmen in Seven Establishments Quit Because of New Ten-Hour Scale.

NO DELAY FOR CUSTOMERS

Employers Will Send Elsewhere for Help Unless Strikers Return by Saturday.

Unwilling to work on a ten-hour schedule in place of nine hours, which was the scale up to September 1, eighteen cutters and fitters employed in the ladies' tailoring establishments have gone on a strike. Seven shops are affected, these controlling, it is said, practically the entire output here. The strikers have been notified that unless they return to work by Saturday they cannot hope to be employed again.

Coming as it does at the fall season, when so many garments have been ordered, the temporary delay may be distressing to women who are awaiting rich gowns and nobby tailor suits, although the proprietors declare that everything will be running along as usual in a day or two, and that customers need not be alarmed by the situation. It is not difficult, they say, to bring other workmen here in a day or two. Up to the full season, which came after the spring rush, the shops had been working on a ten-hour schedule, after which they ran on a nine-hour scale until September 1. No work was given that, beginning Wednesday morning, the longer hours would be demanded. After that date, one establishment continued on the old schedule, though the proprietor announced that he would join in the movement.

It was explained yesterday that none of the employees received less than \$20 a week, many receiving larger wages than that because of superior workmanship. No question of wages is involved in the present controversy.

TRIP IN MOTOR CAR

William Strauss, of Harrisburg, Pa., Encountered Bad Roads in Virginia.

William Strauss, of Harrisburg, Pa., arrived in the city yesterday in his touring car, having made the trip over some roads which were good and some which were not. From Washington he came to Richmond by way of Alexandria, Dumfries, Stafford, Fredericksburg and Ashland. Mr. Strauss said that he would advise motor car people to avoid this route, as the roads in some places are almost impassable.

Swamps and marshes were encountered and several points where teams had to be pressed into service to get the car under way again. One or two bridges were broken down, which necessitated long detours, one of which was a distance of six miles. From Hewlett to Ashland and then to Richmond, Mr. Strauss said the roads were exceptionally good.

WED IN WASHINGTON

Mr. Brewer and Miss Nelson Go There and Surprise Friends.

James Henry Brewer, a conductor for the Atlantic Coast Line Railway, and Miss Elsie May Nelson, of this city, were married yesterday morning at 11 o'clock in the National Hotel, Washington, D. C. Dr. Whitmore, rector of Trinity Episcopal Church, performed the ceremony. Mr. and Mrs. Brewer, both of whom have many friends here, who will be surprised to hear of the event, left after the ceremony for an extended Northern tour. Mrs. Brewer is a daughter of James Nelson, of Richmond, and the bridegroom is a native of North Carolina. They will make their future home at 1908 West Main Street.

EARLE'S THIRD AFFINITY

Artist and His Newest Soul Mate Traveling as Brother and Sister.

(Special Cable to The Times-Dispatch.)
PARIS, September 2.—Lord and Penney Earle is here with his new "soul mate," Miss Gertrude Buell Dunn, who he declares is the only woman who really understands him. The man and woman are traveling as brother and sister, and are expected to engage a book on the relations of husband and wife, although they both declare they will never marry. The statement is made that their affection is platonic and that socialistic ties are the only bonds which bind them.

Miss Dunn declares that her mother and brother both understand that her relations with Earle are not improper.

NEW DISEASE TERRIFIES MEN WHO EAT CORNBREAD

Even Griddle Cakes and Roasting Ears Jump Into Unpopular Favor Because of Some Scientific Discoveries.

Your old friend, the corn pone, is coming in for its season of unpopularity. Even the fine corncakes, stacked up like poker chips, and the tempting roasting ear are looked upon with some feeling of apprehension, just because the scientific men have discovered that pellagra, that new disease, springs from bad ears and grains which go through the mill. In a little while the experts figure that corn whiskey may cause pellagra, although those who advocate the latter product contend that the disease germs are killed by the system of distilling and the high percentage of alcohol. Be this as it may, cornbread and corn products from the cookshops are not in high favor these days, and hungry men, who read as they run, turn their heads with a longing look of fear.

Experts who have studied the scientific discovery are doubtful about the proper food for horses. Oats have their purpose well enough, but the horse needs corn. He cannot be fed on pats de fols gras nor upon lettuce with axle grease dressing called mayonnaise. Fodder takes the place of the equine's lettuce, and green grass is good enough, but not suitable for every-day food.

According to a Richmond man who has looked into the books, appendicitis can be cured by eating along with the bicycle, while pellagra is the side partner of the motor-car. By his sys-

OFFERS NEW SITE FOR BATTLE ABBEY

Committee Recommends Intersection of Monument Avenue and Boulevard.

ALVEY PAYMENT WITHHELD

Recommendation That Seabrook Warehouse Be Demolished, Use of Armory.

The Battle Abbey site was the bone of contention in the meeting of the Grounds and Buildings Committee last night. The report of the subcommittee, recommending the lot at the southeast corner of Monument Avenue and the Boulevard, was laid on the table, and Alderman Satterfield's motion, recommending to the Council that the site selected be the intersection of those streets, provided the design of the building be suitable in the opinion of the Grounds and Buildings Committee, was carried by an overwhelming vote.

The report of the subcommittee, unfavorable to an intersection site and favorable to the lot site on the corner, was based on the opinion that the building ought not to be allowed at an intersection unless its dimensions were known to the committee. The committee's power extended only to a selection of a proper site, but it was generally agreed last night that some knowledge ought to be had of the design before the abbey should be placed in the street. The final action of the committee looks to the approval of the design by the committee before the building may be erected. Some fear was expressed that the building, if erected in the street, might block the thoroughfare or present an ungainly appearance, unless the city exercised supervision.

Not to Rent Warehouse.

The usual routine business was transacted, and in addition to this the subcommittee appointed to look into the advisability of rehabilitating the Seabrook Warehouse for rental presented a report, recommending that it be not rented; that it be demolished and the material sold to the highest bidder.

The question of such a restoration, the proposed lessee, would cost the city heavily, and so the report was adopted. Considerable sentiment in favor of using the site for a new jail was expressed, and a resolution calling for the sale of the warehouse, was largely for the reason rejected.

The City Engineer reported that, acting under the advice of the City Attorney, he was withholding payment of \$109.11 due to Alvey Brothers, owing to certain matters pending.

NOT FLOOD'S MAN

Tenth District Congressman Declares He Was For Democrat for Supervisor.

It is learned upon high authority that Warren S. Hyde, who was appointed by the President as supervisor of the census for the Tenth District of Virginia, was not the choice of Congressman H. D. Flood, but that Mr. Flood endorsed a Democrat for the place. It has been reported that Mr. Flood, who is well known to the friends of the Tenth District Representative, declared that he is not only not satisfied with the appointment, but that he had assurances that his district would get a Democrat for the office.

Instead of a Republican, it is stated by men who know the situation thoroughly that Mr. Hyde, who is a citizen of Botetourt, was once a Democrat, though two years ago he ran for Commonwealth's attorney against W. R. Allen, the Democratic nominee for that office. It is said further that he voted for the Republican ticket last year, and that he was a delegate to the recent State convention of that party held in the city of Newport News.

Mr. Flood states that he endorsed a straight Democrat for the place, and that he did not know of the candidacy of Mr. Hyde until his appointment was announced. This statement is made in view of Mr. Flood, who has been charged in some quarters with having endorsed the application of Mr. Hyde.

NOT A BAD MONTH

August Records Showed Very High and Very Low Temperatures.

While the frost was in the air yesterday, Director Evans decided to get a line on August weather in Richmond, which he found to be good and bad in spots. Taking as a thing to be considered, the summer has been unusually mild, with just a smattering of real high temperatures here and there. September came in without any flourish of mercury. At 8 o'clock yesterday morning, for instance, the temperature was down to 58, many people being of the impression that it was about ten points under that. Even in August, however, it got as low as 58, the high mark being 95, on August 2, while the greatest daily range was thirty degrees on the following day.

During the past month there were nine clear days, fourteen partly cloudy days and eleven days on which there was slight precipitation. What September will do is a gray horse of another color.

Republicans Will Nominate.

The Republican county committee of Henrico will meet to-morrow afternoon at the courthouse to nominate a candidate to oppose Charles W. Throckmorton for the House of Delegates. Because of the close fight between Throckmorton and Davis, the Republicans think that they will have a good chance to win the general election.

Even if it is true that the new affliction comes from an inferior quality of corn, said a physician last night, "there is no reason why we should refuse to eat the old pone or the delectable cakes. If we figure it down to a grain's heel, the average man would eat nothing; there is a germ of some kind in everything, but corn, when properly ground into meal, and properly protected against dampness which brings on the mould, is the best food on earth."

Despite the danger flag wouldn't you like to have a nice, brown plate of griddle cakes, highly buttered, with real maple syrup on the side?

Children Cry FOR FLETCHER'S CASTORIA

MARRIED IN HOSPITAL.

MR. AND MRS. ROBERT W. HERBERT.

HOSPITAL BRIDE SOON TO RECOVER

Mrs. Herbert Undergoes Successful Operation, and May Soon Join Her Husband.

While her husband and father awaited a report from the surgeons, Mrs. Robert W. Herbert, of Pleasant Grove, Goodland county, was operated on at the Johnston-Willis Sanatorium yesterday. The patient, whose marriage to Robert W. Herbert, of this city, took place in the hospital after her arrival here on Monday, is said to have successfully withstood the surgeon's knife, and she is now believed to be on the way to recovery.

The marriage was not contemplated until after the bridegroom had been informed by experts that an operation was imperative. His insistence induced the girl, who was Miss Fanny B. Wynn, of Lunenburg county, to consent to an immediate marriage. The husband has been a constant caller at the institution since the wedding, and not until yesterday, when physicians assured him of his wife's speedy recovery, was he willing to let an hour pass without knowing of her condition.

W. C. Wynn, of Lunenburg, Mrs. Herbert's father, reached the city yesterday. He was formerly a member of the Virginia House of Delegates. "I am the father of ten children," he said. "This is the last to leave me."

I was married for the second time about five years ago, and now, with nobody dependent upon me except a wife, I find myself in the same position in which I was forty years ago."

Mrs. Herbert's condition is not considered serious, and she is expected to be out again in a few weeks. Mr. Herbert was a visitor at Mr. Wynn's home when the young woman became ill, and assisted in bringing her to Richmond.

Paid Only Entrance Fee.

Joseph D. Eggleston, Jr., who is the Democratic nominee for re-election to the office of Superintendent of Public Instruction, filed his expense account with the Secretary of the Commonwealth yesterday in conformity with the provisions of the Barksdale pure election law.

Mr. Eggleston had no opposition in the primary, his expenses therefore having been only his entrance fee, amounting to the sum of \$480.

Reward Offered.

Governor Swanson yesterday offered a reward of \$100 for the capture of the negroes who are charged with the recent murder of Deputy Sheriff John W. Sykes, of Norfolk county. The offer is limited to ninety days.

LEWIS CHARGED WITH ROBBERY

Under two warrants, charging that he had on as many occasions forced an entrance to the post-office at Boscobel, Va., Sherman Lewis, colored, for whom the local post-office inspectors have been searching for several weeks, was arrested yesterday by detectives of the Chesapeake and Ohio Railway Company, and by them delivered into the custody of United States Marshal T. Lewis is now confined in the City Jail, and will be given a preliminary hearing before Commissioner Flegenhelm to-day.

Reports of robberies at the post-office at Boscobel were received by the local authorities, and when a special detective was sent to investigate, he was informed that Lewis was a likely suspect.

He visited the negro's room in his absence, and in searching a trunk found some of the missing letters. It was then that a warrant was sworn out, but Lewis is said to have been informed of the presence of the officers and made good his escape. Nothing was heard of him until yesterday when Detective Scherer, chief of the railway force, reported the capture.

Lewis has a bad reputation in the community, and was well known to the sluths. It is said that aside from the inconvenience caused by the loss of letters, the office suffered the loss of several hundred dollars. On both occasions the door of the office, as the windows are barred, was broken in the charge included housebreaking in connection with the theft of mail matter. Lewis will more than probably be held for the grand jury, and will not be tried, in this event, until October.

Mr. Campbell, though handicapped by living in a Republican district, is regarded as one of the most militant Democratic leaders in the entire State. He predicts the election of the whole Democratic State ticket (this fall) by a safe majority.

SUTTON ARRESTED FOR KING'S DEATH

Warrant Charges That His Buggy Knocked Down Jeweler in Street.

WILL HOLD INQUEST TO-DAY

Theory Is That Victim Was Struck While Trying to Escape Ice Wagon.

While trying to tell how the accident happened, Calvin King died on the street at the corner of Sixth and Marshall Streets yesterday morning at 8:30 o'clock, after having been struck by a vehicle alleged to have been driven by J. M. Sutton, who was arrested yesterday afternoon shortly after 2 o'clock, charged with criminal negligence and causing the death of Mr. King. He will be brought before a coroner's jury this morning at 10 o'clock in order that, if possible, the blame may be properly placed.

Immediately after the accident Mr. King was picked up by two policemen, to whom he apparently tried to talk, but he died in a few minutes after they had carried him to the sidewalk. Many people saw him fall, but none could give a clear account of it. The nearest thing to an authentic description of the affair seems to be that Mr. King, while crossing the street, got directly in front of an ice wagon, and was in danger of being run down by it. In dodging the wagon, it was said that he was struck by the buggy alleged to have been driven by Mr. Sutton. His skull was fractured at the base, which strengthens the belief that he came to his death from his fall on the cobblestones, rather than from the direct blow received from the buggy. When he died blood was streaming from his mouth and nose.

Mr. Sutton's Story.

When arrested Mr. Sutton declared that he was in no way responsible for the accident; that he did not believe his buggy had struck Mr. King. He said also that he was driving carefully at the time. None of the spectators could say that he was driving recklessly. Mr. Sutton said that he was in a great hurry when the accident occurred, and that he paused for a few moments, thinking that the man had simply fallen down and not injured himself. He drove on without ascertaining how serious his injuries were as soon as he saw people go to his assistance. He claims that he did not know that he was wanted by the police until officers came to arrest him. He was carried to the Second Police Station and held.

According to information received by Coroner Taylor yesterday afternoon, Mr. King had once before met with an accident in which he was injured. It is said that the doctor at that time told him that another severe blow on the head would be fatal. An examination yesterday disclosed no injuries except those on his head. The theory is that he was brushed by the buggy, which caused him to fall and fracture his skull on the cobblestones. Mr. King was a jeweler on West Broad Street and lived at 417 North Ninth Street. He was about forty-five years of age.

MA OR BARTER COMING

Salvation Army Officer to Help Raise Funds Here.

Major M. E. Barter, divisional officer of the Southeastern Division of the Salvation Army, will be in Richmond from Monday, September 6 to 13, inclusive, and will speak each night in the open air at Broad and Eighth streets, and in the Army Hall at 815. Major Barter will be accompanied by Adjutant Core, who is well known in Richmond as a singer, and also by a brigade of soloists, both vocal and instrumental. It is expected that all friends of the army's work will attend these meetings as the major is coming especially to assist the local corps to raise money wherewith to help the many girls who are coming daily to Captain and Mrs. Fowler for aid.

MR. STUART AND CAPT. WILLARD ARRIVE IN NEW YORK TO-DAY

Captain Joseph E. Willard and Hon. Henry C. Stuart will arrive in New York to-day on the steamship La Provence, of the French transatlantic line. Mr. Stuart is returning home to look after some private business matters and will leave again for Paris to join Mrs. Stuart within the next few weeks.

Invited Odd-Fellows Here.

The 1910 convention of Odd-Fellows will be invited to meet in Richmond. At its next convention, on September 21, in Seattle, Hill Montague, who is primarily in a Republican district, will extend the invitation in behalf of the city.

A strong effort will be made to land this convention, for success in so doing would bring many thousands of visitors to the city from every nook and corner of the nation.

IT WORKS

The Laborer Eats Food That Would Wreck an Office Man.

Men who are actively engaged at hard work can sometimes eat food that would wreck a man who is more closely confined.

This is illustrated in the following story:

"I was for 12 years clerk in a store working actively, and drank nothing but tea, coffee, and stout, and I was in good health. After I entered the telegraph service."

"There I got very little exercise, and drinking strong coffee, my nerves grew unsteady and my stomach got weak, and I was soon a very sick man. I quit meat and tobacco, and, in fact, I stopped eating everything but bread, butter, and milk, and I am well and can eat anything I want without any bad effects, all due to shifting from coffee to Postum."

"I told my wife to-day I believed I could digest a brick if I had a cup of Postum to go with it."

"We make it according to directions, boiling it full 10 minutes, and use good rich cream and it is certainly delicious. Look in pkgs. for a copy of the famous little book, 'The Road to Wellville.'"

"There's a Reason."
